

Module 2 # SC-300 Hands-On Lab — Module 2: Initial Configuration of Microsoft Entra ID

Practical lab work from my Microsoft Identity & Access Administrator (SC-300) learning journey. Configured a Microsoft Entra ID tenant from scratch in a free lab environment — documented with screenshots and the reasoning behind each step.

What this module covers

Task	Skill demonstrated
Explore the Entra admin center	Navigating Entra; reading tenant identity & license
Company Branding	Anti-phishing hardening of the sign-in experience
Assign admin role (Helpdesk Admin)	Least Privilege — scoped role over Global Admin
Tenant-wide settings	Governance hardening — app registration & admin-center restrictions

Lab environment

- Microsoft Entra ID Free tenant (isolated practice environment)
- 3 test users + Global Admin

Full walkthrough with screenshots: ``IAM_M2_Lab_Portfolio.docx``
